Comfort and dignity as life nears its end

FALL 2017

PALLIATIVE CARE EDUCATION OFFERED TO FELLOWS

Hospice of the Valley is hosting a joint Journal Club for Palliative Care Fellows to present and discuss articles.

The four palliative care fellowship programs within Maricopa County, comprised of Mayo, VA/Banner, Phoenix Children's Hospital and the newly created Fellowship at Dignity Health-St. Joseph's, have combined efforts to provide education to their fellows.

Palliative Care faculty and fellows will be invited to present articles. These presentations will provide opportunities for Palliative Care Fellows to critically appraise the current literature, present findings, review data and discuss current practice. It will also provide an opportunity for greater networking between participants in the fellowship programs.

The concept originated with Drs. Mark Edwin of The Mayo Clinic and Paul Stander of the VA, program directors. They will moderate the journal clubs.

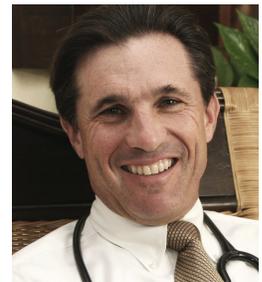

Journal reviews are a requirement of the fellowship programs. Bringing the Fellows together will broaden and deepen discussions.

Hospice of the Valley is proud and excited to facilitate this educational opportunity, which starts in January.

For more information, contact Annette Lemire, fellowship program coordinator at Mayo Clinic, lemire.annette@mayo.edu or (480) 342-2812; or Dr. Gillian Hamilton, administrative medical director, Hospice of the Valley, gghamilton@hov.org or (602) 748-3692.
